PhD Dissertation Prospectus Approval
Department of Biostatistics

The Department of Biostatistics requires that a dissertation prospectus, which describes the rationale for the proposed research and outlines its basic components, be presented to the student's Dissertation Committee. This prospectus should include some completed work, some work in preparation, and some planned work. The prospectus meeting must take place after forming the dissertation committee, and at least one semester prior to the dissertation defense.

Student: _____ UID #: _____

Date: _____

Prospectus Title: _____

_____

Outcome Decision (✓) ☐ No follow-up needed prior to defense

☐ Meet again prior to defense

I have participated in the prospectus meeting of this student's Dissertation Committee and I approve the outcome decision for this presentation.
