

Welcome to the 2005 Iowa Health Fact Book!

This book is the fifth in a series of Iowa Health Fact Book biennial publications and has been produced as a collaborative effort between The University of Iowa College of Public Health and the Iowa Department of Public Health. This book adds to the Iowa Great Places initiative by compiling information related to the health of Iowans. Much of this information is presented for each of Iowa's 99 counties and includes such knowledge as data on disease incidence and mortality, health and social behaviors, health resources, and environmental factors. With this book, we present a tool that is useful to Iowa's health care providers, health policy-makers, public health practitioners, and health researchers alike.

Please feel free to contact us at the Center for Public Health Statistics by email with any questions, comments, or requests cph-factbook@uiowa.edu. The URL for accessing the Iowa Health Fact Book is

<http://www.public-health.uiowa.edu/FACTBOOK>

Thank you, and we hope that you find this publication useful.
