

Department of Biostatistics

The Department of Biostatistics in the College of Public Health at The University of Iowa invites applications at the rank of tenure-track Assistant Professor. A PhD in biostatistics, statistics, or a related area is required, as well as evidence of excellent written and oral communication skills, a demonstrated potential for excellence in teaching, a demonstrated potential for independent methodological and collaborative research and the ability to work as part of a multidisciplinary team. A research record in clinical trials is strongly preferred, but not required. The successful candidate will be involved in teaching, service, and research. Research activities of this position will include supporting the ongoing activities of the Clinical Trials Statistical and Data Management Center (CTSDMC). Established in 1989, the CTSDMC has a demonstrated history of facilitating the development and implementation of multi-center clinical trials and large epidemiological studies. The CTSDMC has approximately 36 full-time staff, 8 faculty collaborators, and is currently serving as the data coordinating center (DCC) for NIH and foundation funded studies in diabetes, stroke, Parkinson's disease, hypertension, orthopedics, and psychiatry. Further information about the Department is available at <http://www.cph.uiowa.edu/biostat/>, and further information about the CTSDMC is available at <http://www.ctsdmc.org>.

The Department of Biostatistics includes 15 primary faculty, 8 secondary faculty, and approximately 40 graduate students. The Department offers MS and PhD degrees in Biostatistics, as well as an MPH degree specializing in Biostatistics. Department faculty enjoy strong collaborative relationships with other departments in the College of Public Health, the Carver College of Medicine, the Department of Statistics and Actuarial Science, The Institute for Clinical and Translational Sciences, and other groups across campus. Information about The University of Iowa is available at <http://www.uiowa.edu>.

Candidates must submit applications online at <http://jobs.uiowa.edu/>, Requisition #60379. To guarantee full consideration, all application materials must be received by February 1, 2012. However, screening of applications will continue until the position is filled. Attachments to this application must include the letter of interest, curriculum vitae, and name and contact information of references. Recent graduates (within 4 years of their doctoral degree) will be contacted and asked to email transcripts from their graduate education, an abstract of their PhD thesis, and any manuscripts in progress.

Applicants should arrange to have three letters of reference emailed to biostatistics@uiowa.edu. This email address may also be used if you have questions about the position or your application.

Founded in 1847, the University of Iowa offers its 29,000 students over 100 areas of study. Among the University's distinctions are one of the largest university-owned teaching hospitals in the nation.

Iowa City is located within 300 miles of Chicago, St. Louis, Kansas City, and Minneapolis. The regional airport is served by 4 airlines. In 2008 Forbes ranked Iowa City #10 for America's Smartest City. In 2007, Sperling's ranked Iowa City #5 for 'Best Places to Live' in the nation, and Outdoor Magazine ranked Iowa City the #1 'Best Midwestern Town'. In 2006, Kiplinger's Personal Finance Magazine ranked Iowa City #10 for 'Smartest Places to Live' in the nation. For additional information about Iowa City, please visit: <http://www.icgov.org/>.

The University of Iowa is an Equal Employment Opportunity & Affirmative Action employer. Women and minorities are strongly encouraged to apply.
