

## Welcome to the 2003 Iowa Health Fact Book!

This book is the fourth in a series of Iowa Health Fact Book biennial publications and has been produced as a collaborative effort between the University of Iowa College of Public Health and the Iowa Department of Public Health. In it you will find information related to the current and future health of Iowans, such as data on disease incidence and mortality, health and social behaviors, health resources, and environmental factors. By compiling this type of information into one publication, we present a tool that is useful to Iowa's health care providers, health policy-makers, public health practitioners, and health researchers alike.

Enclosed in this bag should be five items. First, this page includes a welcome and an order form for bound paper copies of this Fact Book. If you prefer to print selected pages of the 2003 Fact Book using either the enclosed CDROM or by visiting the 2003 Fact Book website, a three-ring binder cover and spine insert are enclosed. Finally, a survey is included that will help ensure the quality of future Iowa Health Fact Books. Please feel free to contact us at the Center for Public Health Statistics by email with any questions, comments, or requests [factbook@mail.public-health.uiowa.edu](mailto:factbook@mail.public-health.uiowa.edu). The URL for accessing the 2003 Iowa Health Fact Book is

<http://www.public-health.uiowa.edu/FACTBOOK>

Thank you, and we hope that you find this publication useful.
