Cara Hamann
Associate

Kelli Ryckman
Associate Professor

Wednesday December 14, 2016 ■ 12:30-1:30 pm
C217 CPHB
Lunch Provided ■ RSVP to Lauren-Watt@uiowa.edu

Translating research into policy and practice change is an aspirational goal sought by many to attain. The Policy Fellow program is designed to support faculty in achieving this goal.

This seminar focuses on the newly developed Policy Fellowship program and will showcase the recently selected 2016-2017 CPH Policy Fellows. Each Fellow will describe an overview of their Action Learning Project, the proposed strategic steps and the anticipated impact of the project.

Come and join the conversation as we discuss the projects below:

- Strengthening Cancer Reporting Rules
- Implementing New Guidelines for Newborn Screening in the NICU
- Increasing Bicycle Safety

Are you interested in applying for the Policy Fellowship Program next year? If so, this will be a great opportunity for you to learn more about the program!

Individuals with disabilities are encouraged to attend all University of Iowa-sponsored events. If you are a person with a disability who requires a reasonable accommodation in order to participate in this program, please contact the College of Public Health in advance at 319-384-1500.
