Research Informs Policy ???
Policy Informs Research ????

Keith J. Mueller, Ph.D.
Director
RUPRI Center for Rural Health Policy Analysis
University of Nebraska Medical Center

Presented at the Annual Meeting of
The National Rural Health Association

May 15, 2002
Kansas City, Missouri
When Research Does Not Connect

U of Minnesota Center for Rural Health Research in 1992-1993:

- two papers from the Center
- detailed analysis of a DRG-based definition of limited service hospital
- in the context of the 72-hour limit in place for the EACH/RPCH program

Legislation developed in 1997 for the Critical Access Hospital program

- continued to use length-of-stay as the measure
- struggled until change made to average length-of-stay

Connection missed: health services research to support policy choice
When Research Does Connect

RUPRI analysis in 1996-97

- of changes in the AAPCC
- ability to assess changes quickly

Policy Process

- interest in raising rural rates
- developing a floor payment
- measuring change in payment
When Research Does Connect (continued)

Essentials

- utility of the work in an immediate sense
- interactions in developing the work and products
- paying attention to details of policy
- frequent interaction
When Research Does Connect: Post-BBA

- RUPRI identification of problematic parts of the BBA
- U of North Carolina work with wage index
- Walsh Center work with outpatient payment modeling
- WWAMI work with Medicare Incentive Payment (bonus payment to physicians)
When Research Parallels Policy

- Recent experience with J-1 Visa Waiver issue
- HPSA designation debate
Two Ships Passing

- Medicare+Choice debates
- Medicare Reform, Insurance reform

Importance of policy informing research
