June 8-12, 2015

Session I: June 8-10
Monday-Wednesday

Session II: June 10-12
Wednesday-Friday

Participants may attend one or both sessions. Individuals taking the course for college credit must complete both sessions.

Jointly provided by The University of Iowa College of Public Health ♦ The Roy J. and Lucille A. Carver College of Medicine ♦ The College of Nursing ♦ Great Plains Center for Agricultural Health ♦ Heartland Center for Occupational Health and Safety

Statement of Purpose: To provide the information and skills needed to enable safety and health professionals to anticipate, recognize, and prevent occupational illnesses and injuries among members of the agricultural community. Successful completion of this course allows qualified participants to join AgriSafe® as a Certified Member. AgriSafe® benefits include clinical resources, technical assistance, continuing education, and use of the trademarked name AgriSafe® in promoting agricultural health services.

Intended Audience: Appropriate for safety and health managers, graduate students, nurses, physicians, veterinarians, and anyone interested in the unique safety and health needs of rural and agricultural communities.

Training Director: Diane Rohlman, MA, PhD, Associate Professor, Department of Occupational and Environmental Health, University of Iowa, College of Public Health.

Educational Objectives

Upon completion of Session I, the participant should be able to:
* Describe the magnitude and impact of injury and illness among agricultural workers.
* Utilize health and safety principles and paradigms including principals of prevention, hazard identification and assessment, risk assessment, and the exposure-outcome continuum.
* Describe the magnitude and impact of transportation-related injury including those associated with tractors, ATVs/UTVs, commodity transportation, and other powered implements.
* Identify risk factors for injury and fatality associated with agricultural tasks.
* Identify emergency rescue procedure for various agricultural hazards/events.
* Discuss the acute and chronic health effects of pesticide exposure including the ability to recognize acute carbamate and organophosphate toxicity.
* Apply principles of prevention to a potential farm hazard scenario.
* Have familiarity with common respiratory effects of agricultural exposures, including rhinitis, airways disease, hypersensitivity pneumonitis, acute irritant conditions and organic dust toxic syndrome.
* Outline hazards associated with livestock production and hazard control practices.
* Identify routes of disease transmission to animal and human populations.

Upon completion of Session II, the participant should be able to:
* Describe the magnitude and impact of skin disease among agricultural workers.
* Describe factors in the agricultural workplace that lead to increased psychosocial stress.
* Discuss the NIOSH Total Worker Health Program and describe ways it can enhance the safety and health of agricultural workers.
* Develop awareness of how agricultural workers are exposed to risk factors for upper extremity and low back musculoskeletal disorders.
* Describe characteristics of the farm population that create challenges in prevention.
* Identify hazards associated with farm equipment and potential injury or illness.
* Describe physical agent exposures experienced by agricultural workers and the associated health risks.
* Identify at least two cancers for which the agricultural population is at decreased/increased risk.
* Describe a rural medicine practice and how it compares to an urban general practice, addressing access to care, quality of care, rural hospitals and systems of care.
* Describe the role of national and regional organizations in promoting rural health and agricultural medicine.
Continuing Education Credit

Physicians
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the University of Iowa Roy J. and Lucille A. Carver College of Medicine and the University of Iowa College of Public Health. The University of Iowa Carver College of Medicine is accredited by the ACCME to provide continuing medical education for physicians. The University of Iowa Carver College of Medicine designates Session I of this live activity for a maximum of 17.75 AMA PRA Category 1 Credits™, and Session II of this live activity for a maximum of 19.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DISCLOSURE POLICY: Everyone in a position to control the content of this educational activity will disclose to the CME provider (University of Iowa Carver College of Medicine) and to attendees all relevant financial relationships with any commercial interests. They will also disclose if any pharmaceuticals or medical procedures and devices discussed are investigational or unapproved for use by the U.S. Food and Drug Administration (FDA).

Nurses
This program is offered in cooperation with the University of Iowa College of Nursing, an Iowa Board of Nursing approved provider, Number 1. Full time attendance at Session I will award 20.4 contact hours or 2.04 CEUs. Full time attendance at Session II will award 19.5 contact hours or 1.95 CEUs. CEU cards will not be accepted until the end of the third day of each session.

Veterinarians
Application for Continuing Education Credit has been filed with the Iowa Board of Veterinary Medicine.

EMS
This program has been approved for EMS Continuing Education Hours by the University of Iowa Health Care EMS Learning Resources Center, Iowa Approved Provider #18. The EMSLRC designates Session I of this activity for 11 formal and 6.75 optional hours, and Session II of this activity for 9 formal and 4 optional hours.

Academic Credit
Sessions I and II combined may be taken for 3 hours of graduate credit from the University of Iowa College of Public Health. Students must register for OEH:6110, Rural Health and Agricultural Medicine (Summer Session 2015).
