

BIOGRAPHICAL SKETCH

Provide the following information for the key personnel and other significant contributors in the order listed on Form Page 2.
Follow this format for each person. **DO NOT EXCEED FOUR PAGES.**

NAME Susan J. Curry		POSITION TITLE Dean and Professor	
eRA COMMONS USER NAME SUECURRY			
EDUCATION/TRAINING <i>(Begin with baccalaureate or other initial professional education, such as nursing, and include postdoctoral training.)</i>			
INSTITUTION AND LOCATION	DEGREE <i>(if applicable)</i>	YEAR(s)	FIELD OF STUDY
University of Massachusetts	B.A.	1976	Psychology
University of New Hampshire	M.A.	1979	Psychology
University of New Hampshire	Ph.D.	1981	Psychology

A. Research and Professional Experience:**Positions and Employment**

1981-1984 Post-doctoral Research Associate, Department of Psychology, University of Washington
 1984-1986 Staff Scientist, Fred Hutchinson Cancer Research Center, Cancer Control Research Unit
 1986-2001 Scientific Investigator (1994-2001), Associate Scientific Investigator (1991-1994), Assistant Scientific Investigator (1986-1991), Center for Health Studies, Group Health Cooperative
 1987-2001 Professor (1995-2001), Associate Professor (1991-1995), Assistant Professor (1987-1991), Department of Health Services, University of Washington
 1997-2000 Associate Director (1997-1998) and Director (1998-2000), Center for Health Studies, GHC
 2001-2008 Professor, Health Policy and Administration, School of Public Health and Director, Institute for Health Research and Policy, University of Illinois at Chicago
 2008-Present Dean, College of Public Health and Distinguished Professor, Health Management and Policy, College of Public Health, University of Iowa

Selected Other Experience and Professional Memberships

1999 - 2002 Member, National Cancer Policy Board, Institute of Medicine
 2004 – Present Member, Board of Directors, American Legacy Foundation
 2005 – Present Member, Board of Scientific Advisors, National Cancer Institute
 2005 – Present Associate Editor, American Journal of Preventive Medicine
 2006 – 2008 Member, Public Health Service Treating Tobacco Use and Dependence Clinical Practice Guideline Update Panel
 2008 – Present Member, Committee on Smoking Cessation in Military and Veteran Populations, IOM

Honors

Fellow, Society of Behavioral Medicine
 Fellow, American Psychological Association, Divisions 38 and 50
 Recipient, Joseph W. Cullen Memorial Award, American Society of Preventive Oncology, 2000
 Recipient, Distinguished Scientist Award, Society of Behavioral Medicine, 2001
 Fellow, Institute of Medicine of Chicago, 2006
 President-Elect (2008), Society for Research in Nicotine and Tobacco

B. Selected peer-reviewed publications (in chronological order) (out of 182)

C. Research Support
Ongoing Research Support

044398 (PI: Curry) 12/01-05/09
Robert Wood Johnson Foundation/National Cancer Institute/Center for Disease Control
Helping Young Smokers Quit
This national project conducts longitudinal evaluations of youth cessation evaluation programs across the country.

046994 (PI: Curry, 9/04-8/08; Co-PI: Curry 8/08) 09/04-08/09
National Institute on Drug Abuse
Healthcare Costs and Utilization of Smoking and Quitting (TTURC)
This study examines the impact of smoking cessation on health care utilization and costs of health care among smokers within a large network of primary care clinics.

Pending Research Support

RO1 CA134861-01A1 (Dual PI: Curry & Mermelstein) 04/09-03/14
National Cancer Institute
Increasing Young Adult Smokers' Demand for Internet Based Cessation Treatment
Population-level data indicate that compared to older adults, young adults are less successful at quitting, and they use treatment less often. The goals of this study are to implement a 4-phase research plan to develop and evaluate theoretically derived internet strategies to increase young adult smokers' use of on-line cessation treatment support and to conduct a longitudinal evaluation of treatment participation and outcomes in a population-based cohort of on-line treatment seekers.

(Center Co-PIs: Fiore and Baker; Project PI: Curry) 09/09-08/14
University of Wisconsin-Madison, Center for Tobacco Research and Intervention (subcontract)
National Institutes of Health
Engaging practices and patients in tobacco treatment: an effectiveness trial
Health care organizations, including health care delivery systems and front-line practice teams are uniquely positioned to help smokers successfully quit smoking by facilitating their use of evidence-based tobacco cessation treatments. This center project will investigate the implementation of electronic medical record (EMR) prompting for the 5-A and 2-A clinical practice algorithms in community-based primary practice settings to assess impact on treatment referral, cost-per-treatment utilization and patient-level outcomes.

Recently Completed Research Support

1P20RR023411-01 (PI: Mazzone; Core Co-Director: Curry) 01/07-08/07
National Center for Research Resources
Planning Grant for Institutional Clinical and Translational Science Award
The goal of this planning grant is to develop the infrastructure necessary to grow a multidisciplinary home for clinical and translational research and to generate a competitive NIH CTSA grant application.

GS-23F-8144H (PI: Curry) 09/05-03/07
National Cancer Institute
Evaluation of the HHS National Network of Tobacco Cessation Quitlines Initiative
The goals of this evaluation are to assess the implementation of the national network initiative and to monitor its public health impact.

1448DP00048-01 (PI: Curry) 09/04-09/09
Centers for Disease Control and Prevention
Illinois Prevention Research Center

Principal Investigator/Program Director (Last, First, Middle):

The IPRC is investigating the development of community-based initiatives to increase awareness, reduce risk factors, and prevent complications in Latino diabetes. PI transferred when relocated to U of Iowa, 8/08.

3 U48 DP000048-02S1 (Co-PI: Curry)

09/05-09/09

Center for Disease Control

Network for Cardiovascular Health Intervention Research and Translation

The Illinois Prevention Research Center is a collaborating center in the development of the CVH network to develop, coordinate, and translate Cardiovascular research activities into interventions in public health settings. Ended formal role when relocated to U of Iowa, 8/08

1P01 CA98262-01A2 (PI: Mermelstein; Project PI: Curry)

09/04-08/09

National Institutes of Health

Social-Emotional Contexts of Adolescent Smoking Patterns

The overall goal of this program project is to better understand patterns of adolescent smoking from experimentation onward by tracking the natural history and examining in-depth selected social-emotional contextual factors that may influence these patterns. Ended formal role when relocated to U of Iowa, 8/08

048283 (National Program Office Director: Curry)

08/05-07/08

University of Wisconsin-Madison (subcontract)

Robert Wood Johnson Foundation

Addressing Tobacco in Health Care

This project builds on the Addressing Tobacco in Managed Care program to enhance collaborative relationships for health systems research by connecting researchers, health care providers and other partners interested in developing and implementing changes to healthcare systems to improve the delivery of evidence-based tobacco dependence treatment.
