

Ph.D. Dissertation Prospectus Approval Department of Biostatistics

The Department of Biostatistics requires that a dissertation prospectus, which describes the rationale for the proposed research and outlines its basic components, be submitted to the student's Dissertation Committee at the early stages of dissertation research. A formal meeting of the student's Dissertation Committee to evaluate the prospectus is required, and each committee member who approves the prospectus should sign this form.

Student: _____

Student #: _____

Prospectus Title: _____

I have participated in the prospectus meeting of this student's Dissertation Committee, and I approve the dissertation prospectus submitted by the student.
