

The College of Public Health Bloodborne Pathogen Exposure Statement

Department: _____

Appointment date: _____

Employee: _____

Title or Job Code: _____

BBP EXPOSURE

- The above employee is **not at risk** for exposure to blood or OPIM*.
- The above employee is **at risk** for exposure to blood or OPIM* (Go to PART II).

PART II: TASKS OR PROCEDURES

Completion of this form provides documentation specifying the job tasks or procedures that place an employee at risk of exposure, as required in OSHA's Bloodborne Pathogens Standard (29 CFR 1910.1030). The job duties listed below create a potential for occupational exposure to blood or other potentially infectious material (OPIM*).

Please check each box that reflects job duties for the above named employee.

- Works with human blood or blood products (e.g., serum, platelets, cells).
- Handles containers holding human blood or blood products.
- Works with human cell lines.
- Works with Hepatitis B virus (HBV) or preparations that contain HBV.
- Cleans spills involving human blood or blood products or OPIM.
- Works with non-human primates infected with HBV or clean areas where this work is performed.
- Handles blood, blood products, body fluids, or unfixed tissues from animal infected with the HBV.
- Handles unfixed fresh or frozen human tissues or organs (fixed refers to preservation in solutions such as formaldehyde or alcohol.)
- Handles sharp instruments used for any of the work listed on this form.
- Works in patient care with potential for contact with blood or OPIM*.
- Works in a dental setting with exposure to human blood, saliva, oral tissues, or extracted teeth.
- Collects or disposes of biohazard waste or sharps containers.
- Other (specify): _____

Department Responsibility:

(The Employee Must Receive the Following):

1. Initial and annual refresher bloodborne pathogens training. Call the Environmental Health and Safety office at 5-8501 for training information.
2. An offer to receive the hepatitis B vaccine (at the department's cost) OR sign a waiver declining vaccination. Appointments to receive the vaccine are made by contacting University Employee Health Clinic (UEHC) at 6-3631. Waiver forms are also available through UEHC (send completed forms to: UEHC, 1097-1 BT GH).
