# Andrew A. Neath

Professor of Mathematics and Statistics Southern Illinois University Edwardsville

#### EDUCATION

Ph.D. Statistics, University of California, Davis 1994

M.S. Statistics, University of California, Davis 1990

B.S. Applied Math (Economics), California State University, Chico 1988

### CURRENT ACADEMIC APPOINTMENT

Professor, Department of Mathematics and Statistics, Southern Illinois University Edwardsville 2006-

#### **COURSES TAUGHT**

Applied Statistics, Bayesian Statistics, Mathematical Statistics, Regression Analysis, Experimental Design, Sampling Methodology, Time Series Analysis, Categorical Data Analysis, Response Surface Methodology, Multivariate Analysis, Linear Models, Measure Theory and Probability, Mathematical Logic, Computing Logic, Calculus, Multivariable Calculus, Statistics for Environmental Science

Advisor for 41 Masters Research Papers and 23 Senior Project Papers

#### **RESEARCH FELLOWSHIPS**

William and Margaret Going Professor of Arts and Sciences: The Replication Crisis in Science: A Statistical Perspective (2016).

Hoppe Research Professor Award: Statistical Model Selection and Decision Making in the Presence of Uncertainty (2011-2013).

**Annette and Henry Baich Award:** Statistical Model Selection and the Theory of Social Choice (2011).
