

Position: Biostatistician

The Division of Research (DOR) of The Permanente Medical Group, Inc. (Kaiser Permanente Northern California, KPNC) seeks to recruit a doctoral level biostatistician at the early or mid-career level (assistant or associate professor equivalent). This position is similar to a faculty position in an academic research institution. Responsibilities include collaboration on multidisciplinary research teams by providing expertise in study design and statistical methods, preparing proposals and manuscripts, and guiding masters level analysts. The position also provides opportunities to lead independent methodological or applied research.

The candidate must have: (i) a Ph.D in biostatistics, statistics, or a related field (ii) demonstrated expertise in statistical methods, (iii) demonstrated history of successful collaboration and consultation, (iv) a track record of peer-reviewed scholarly publications, and (iv) excellent oral and written skills. Candidates whose research interests complement the main research areas of the Division are particularly encouraged to apply.

The KPNC Division of Research draws upon the Kaiser Permanente Northern California Region's rich electronic medical record data, and direct access to a diverse population of 4.5 million members. The Division has more than 50 PhD or MD research scientists who lead well-developed programs in cancer, cardiovascular and metabolic diseases, infectious diseases, and women's and children's health, health care delivery and policy, and behavioral health and aging. DOR investigators are primarily supported by grant and contract funding from federal and other external sources, including the National Institutes of Health.

Situated within the San Francisco Bay Area, the Division of Research office is in Oakland, California, near Lake Merritt and the Uptown district, and well-served by public transportation. The KPNC DOR is an Equal Opportunity/Affirmative Action employer and individuals from all backgrounds, especially those from historically underrepresented groups, are encouraged to apply.
