EDUCATION

Ph.D.	Statistics	University of California, Davis	1993	(GPA: 3.98/4.00)
M.S.	Statistics	Montana State University	1988	(GPA: 4.00/4.00)
B.S.	Computer Science	Montana Tech	1986	(GPA: 3.99/4.00)
B.S.	Mathematics	Montana Tech	1986	(GPA: 3.99/4.00)

CURRENT POSITION AND APPOINTMENTS

- Departmental Executive Officer, Department of Biostatistics, College of Public Health, University of Iowa;
 December, 2015 – present
- Professor of Biostatistics, College of Public Health;
 August, 2008 – present
 - Professor of Statistics and Actuarial Science, College of Liberal Arts and Sciences;
 August, 2008 – present
 - Professor of Applied Mathematical and Computational Sciences, Graduate College;
 August, 2014 – present
 - Professor of Biostatistics and Computational Biology, College of Dentistry;
 June, 2018 – present

PREVIOUS POSITIONS AND APPOINTMENTS

- November, 2014 – December, 2015 Professor of Biostatistics;
 Professor of Statistics and Actuarial Science;
 Professor of Applied Mathematical and Computational Sciences;
 Interim Departmental Executive Officer in Biostatistics;
 Director of Graduate Studies in Biostatistics;
 University of Iowa
- August, 2014 – November, 2014 Professor of Biostatistics;
 Professor of Statistics and Actuarial Science;
 Professor of Applied Mathematical and Computational Sciences;
 Director of Graduate Studies in Biostatistics;
 University of Iowa

July, 2012 – August, 2014	Professor of Biostatistics; Professor of Statistics and Actuarial Science; Director of Graduate Studies in Biostatistics; University of Iowa
August, 2008 – July, 2012	Professor of Biostatistics; Professor of Statistics and Actuarial Science; University of Iowa
August, 2003 – August, 2008	Associate Professor of Biostatistics; Associate Professor of Statistics and Actuarial Science; University of Iowa
September, 2000 – August, 2003	Associate Professor of Statistics; Director of Undergraduate Studies in Statistics; University of Missouri
September, 1999 – September, 2000	Associate Professor of Statistics; University of Missouri
September, 1998 – September, 1999	Assistant Professor of Statistics; Director of Graduate Studies in Statistics; University of Missouri
September, 1993 – September, 1998	Assistant Professor of Statistics; University of Missouri

AWARDS FOR PROFESSIONAL AND ACADEMIC ACHIEVEMENT

- Elected Member of the International Statistical Institute, 2019.
- Hancher-Finkbine Medallion (for leadership, learning, and loyalty), University of Iowa, 2017.
- Elected Fellow of the American Statistical Association, 2014.
- Montana Tech Chancellor's Medallion (for excellence in an academic career), 2013.
- College of Public Health Faculty Service Award, University of Iowa, 2013.
- Montana Tech Alumni Recognition Award, 1994.
- Valedictorian, Montana Tech graduating class of 1986.
- Highest Scholastic Standing in the Arts and Sciences, Montana Tech graduating class of 1986.

AWARDS FOR TEACHING, ADVISING, AND MENTORING

- College of Public Health Faculty Mentor Award, University of Iowa, 2019.
- College of Public Health Faculty Teaching Award, University of Iowa, 2006.
- William T. Kemper Fellowship for Excellence in Teaching, University of Missouri, 2000.
(\$10,000 award)
- Gold Chalk Award (for graduate student training and mentoring), University of Missouri, 1998.
- Provost Outstanding Junior Faculty Teaching Award, University of Missouri, 1997.
- Teaching Award for Outstanding Graduate Students, University of California, Davis, 1992.

AWARDS FOR RESEARCH

- Co-recipient (with R. A. Peterson) of the 2020 Best Paper Prize from the *Journal of Applied Statistics*: Ordered quantile normalization: a semiparametric transformation built for the cross-validation era.
- Co-recipient of the University of Iowa Carver College of Medicine Award for Best Clinical Paper of 2020: Cystic fibrosis carriers are at increased risk for a wide range of cystic fibrosis-related conditions, published in the *Proceedings of the National Academy of Sciences*,
- Recipient of a 2008 SPES Outstanding Presentation Award by the American Statistical Association Section on Physical and Engineering Sciences. Paper: State-space discrimination and clustering of atmospheric time series data based on Kullback information measures (with T. Bengtsson).
- Served as the Eugene Lukacs Visiting Professor of Statistics in the Department of Mathematics and Statistics at Bowling Green State University (March, 2008).
- Recipient of a 2001 SPES Outstanding Presentation Award by the American Statistical Association Section on Physical and Engineering Sciences. Paper: Self-similarity index estimation via wavelets for locally self-similar processes (with Y. Wang and C. Song).

COURSES INSTRUCTED

Course Title	Institution	Terms Instructed
Advanced Biostatistics Seminar: Model Selection	University of Iowa	7
Advanced Biostatistics Seminar: Generalized Linear Models	University of Iowa	2
Categorical Data Analysis	University of Iowa	10
Biostatistical Methods I	University of Iowa	2
Introduction to Biostatistics	University of Iowa	3 [†]
Seminar in Clinical and Translational Research	University of Iowa	2 [*]
Advanced Linear Models	University of Missouri	4
Linear Models I	University of Missouri	5
Linear Models II	University of Missouri	5
Applied Time Series Analysis	University of Missouri	2
Categorical Data Analysis	University of Missouri	3
Introduction to Mathematical Statistics	University of Missouri	3
Statistical Analysis	University of Missouri	4
Statistical Methods in Natural Resources	University of Missouri	4
Elementary Statistics (Honors)	University of Missouri	4
Regression Analysis	University of California, Davis	1
Probability Modeling and Statistical Inference	University of California, Davis	2
Elementary Statistics	University of California, Davis	10 [‡]
Elementary Statistics	Montana State University	5
Linear Algebra for Business	Montana State University	1
Survey of Calculus	Montana State University	1

[†] Instructed large lecture sections (> 75 students).

[‡] Instructed large lecture sections (> 200 students) for 7 out of 10 terms.

^{*} Served as co-instructor.

METHODOLOGICAL DISCIPLINARY RESEARCH INTERESTS

Model Selection Time Series Analysis State–Space Models Modeling Diagnostics

APPLIED INTERDISCIPLINARY RESEARCH INTERESTS

Epidemiology Infectious Diseases Injury Prevention Dentistry

CONTRIBUTED PRESENTATIONS: CONFERENCES AND MEETINGS

- Cavanaugh, J. E., Neath, A. A. and Davies, S. L. (August, 2005). An alternate version of the conceptual predictive statistic. Contributed Presentation, 2005 Joint Statistical Meetings; Minneapolis, Minnesota.
- Cavanaugh, J. E., Wang, Y. and Song, C. (August, 2001). Self-similarity index estimation via wavelets for locally self-similar processes. Contributed Presentation, 2001 Joint Statistical Meetings; Atlanta, Georgia.
- Cavanaugh, J. E. (August, 1999). Criteria for linear model selection based on Kullback's symmetric divergence. Contributed Presentation, 1999 Joint Statistical Meetings; Baltimore, Maryland.
- Cavanaugh, J. E. (July, 1997). A new class of model selection criteria based on Kullback's symmetric divergence. Contributed Presentation, 1997 IMS Meetings; Park City, Utah.
- Cavanaugh, J. E. (July, 1997). A new class of model selection criteria based on Kullback's symmetric divergence. Contributed Presentation, 1997 IMS New Researchers' Conference, University of Wyoming; Laramie, Wyoming.
- Cavanaugh, J. E. and Johnson, W. O. (May, 1996). Assessing the predictive influence of cases in a state-space process. Contributed Presentation, Kullback Memorial Research Conference; Washington, D.C.
- Cavanaugh, J. E. (April, 1996). Estimators of Kullback-Leibler information for time series model selection. Contributed Presentation, Mid-Missouri Conference on Longitudinal Data Analysis, University of Missouri; Columbia, Missouri.

- Cavanaugh, J. E. and Shumway, R. H. (August, 1995). On computing the expected Fisher information matrix for state–space model parameters. Contributed Presentation, 1995 Joint Statistical Meetings; Orlando, Florida.
- Cavanaugh, J. E. and Shumway, R. H. (August, 1994). A bootstrap variant of AIC for state–space model selection. Contributed Presentation, 1994 Joint Statistical Meetings; Toronto, Canada.

EXTERNAL RESEARCH SUPPORT: SOLE INVESTIGATOR

- Recipient of a 3–year grant from the National Science Foundation, Division of Mathematical Sciences (DMS–9704436; PI). Title of proposal: “A New Class of Model Selection Criteria Based on Kullback’s Symmetric Divergence.” Total amount of award: \$70,120. Period of funding: July, 1997, to December, 2000.

INTERNAL RESEARCH SUPPORT: SOLE INVESTIGATOR

- Awarded a 1996 Summer Research Fellowship in the amount of \$7,000 from the Research Council of the University of Missouri. Title of proposal: “The EM Algorithm in State–Space Modeling.”
- Awarded a 1994–1995 12–month grant in the amount of \$10,900 from the Research Board of the University of Missouri System. Title of proposal: “New Bootstrap Methodologies for State–Space Modeling.”
- Awarded a 1994 Summer Research Fellowship in the amount of \$4,000 from the Research Council of the University of Missouri. Title of proposal: “New Bootstrap Methodologies for State–Space Modeling.”

EXTERNAL RESEARCH SUPPORT: COLLABORATIVE

- Currently funded as a co–investigator on a Centers for Disease Control R49 injury research grant (R49–CE002108). Title of proposal: “Iowa Injury Prevention Research Center.” PI: Carri Casteel. Amount of funding: 8%–10% of salary. Period of funding: August, 2019, to July, 2024.
- Currently funded as a co–investigator on a National Institutes of Health Clinical and Translational Research Award (UL1–TRR002537). Title of proposal: “UI Clinical and Translational Science Program.” PI: Patricia Winokur. Amount of funding: 7%–10% of salary. Period of funding: April, 2018, to February, 2023.
- Currently funded as a co–investigator on a National Institutes of Health R01 research project grant (R01–AI143671). Title of proposal: “Estimating the Risk for and Severity of Respiratory Infections Attributable to CFTR Heterozygosity.” PI: Philip Polgreen. Amount of funding: 8%–10% of salary. Period of funding: April, 2021, to March, 2026.
- Currently funded as a co–investigator on a National Institutes of Health R01 research project grant (R01–HS027375). Title of proposal: “An Expert–Guided Machine-Learning Approach to Estimate the Incidence, Risk and Harms Associated with Diagnostic Delays for Infectious Diseases.” PIs: Philip Polgreen and Aaron Miller. Amount of funding: 10%–16% of salary. Period of funding: September, 2019, to September, 2022.

- Currently funded as a co-investigator on a National Institutes of Health R25 education grant (R25–HL161716). Title of proposal: “Iowa Summer Institute for Research Education in Biostatistics and Data Science.” PI: Gideon Zamba. Amount of funding: 6% of salary. Period of funding: March, 2022, to February, 2027.
- Currently funded as a co-investigator on a U54 specialized center grant from the U.S. Department of Health and Human Services and the Centers for Disease Control (U54–OH007548). Title of proposal: “Great Plains Center for Agricultural Health and Safety.” PI: Renee Anthony. Amount of funding: 2%–11% of salary. Period of funding: October, 2019, to September, 2022.
- Currently funded as a co-investigator on a National Institutes of Health U01 research project grant (U01–CE002961). Title of proposal: “Implementation of a Medication Care Plan to Reduce Unintentional Injury among Rural Older Adults.” Subcontract PI: Carri Casteel. Amount of funding: 2% of salary. Period of funding: September, 2018, to September, 2022.
- Funded as a co-investigator on a National Institutes of Health R25 education grant (R25–HL147231). Title of proposal: “Iowa Summer Institute for Research Education in Biostatistics.” PI: Gideon Zamba. Amount of funding: 4%–6% of salary. Period of funding: March, 2019, to February, 2022.
- Funded as principal investigator on a subcontract for a R01 research project grant from the Centers for Disease Control (R01–CE002913). Title of proposal: “Anti-Bullying Laws and Youth Violence in the United States: A Longitudinal Evaluation of Efficacy and Implementation.” Subcontract PI: Joseph E. Cavanaugh. Amount of funding: 5% of salary. Period of funding: September, 2017, to December, 2021.
- Funded as a co-investigator on a research project grant from the National Institute of Justice, Department of Justice (2016–CK–BX–0006). Title of proposal: “Link for Schools: A System to Prevent Violence and its Adverse Impacts.” PIs: Karen Heimer and Marizen Ramirez. Amount of funding: 1%–5% of salary. Period of funding: October, 2017, to June, 2018; July, 2019, to August, 2021.
- Funded as a co-investigator on a National Institutes of Health D43 international research training grant (D43–TW007261). Title of proposal: “iCREATE: Increasing Capacity in Research in Eastern Europe.” PI: Corinne Peek–Asa. Amount of funding: 1%–8% of salary. Period of funding: July, 2017, to August, 2021.
- Funded as a co-investigator on a subcontract for a R01 research project grant from the National Institute for Occupational Safety and Health (R01–OH010928). Title of proposal: “Understanding Workplace Violence among Young Workers in the U.S.” Subcontract PI: Carri Casteel. Amount of funding: 5% of salary. Period of funding: March, 2017, to September, 2019.
- Funded as a co-investigator on a Centers for Disease Control R49 injury research grant (R49–CE002108). Title of proposal: “Iowa Injury Prevention Research Center.” PI: Corinne Peek–Asa. Amount of funding: 10%–16% of salary. Period of funding: August, 2012, to July, 2019.
- Funded as a co-investigator on a National Institutes of Health R25 education grant (R25–HL131467). Title of proposal: “Iowa Summer Institute for Research Education in Biostatistics.” PI: Gideon Zamba. Amount of funding: 5% of salary. Period of funding: February, 2016, to January, 2019.
- Funded as a co-investigator on a CER comparative effectiveness research grant from the Patient-Centered Outcomes Research Institute (PCORI) (CER–1306–02918). Title of proposal: “Evaluation of Parent-Based Interventions to Support Children after Traumatic Injury.” PI: Marizen Ramirez. Amount of funding: 1%–5% of salary. Period of funding: February, 2014, to August, 2018.

- Funded as a co-investigator on a National Institutes of Health R56 research project grant (R56-DE012101). Title of proposal: “Fluoride, Dietary, and Other Factors Related to Young Adult Bone Measure and Dental Caries.” PI: Steven Levy. Amount of funding: 3%–10% of salary. Period of funding: September, 2015, to July, 2018.
- Funded as a co-investigator on a National Institutes of Health R21 exploratory / developmental research project grant (R21-DK108019). Title of proposal: “An mHealth Intervention to Increase Activity among Patients at Risk for Type 2 Diabetes.” PI: Phillip Polgreen. Amount of funding: 14% of salary. Period of funding: April, 2018, to July, 2018.
- Funded as a biostatistician by the Signal Center for Health Innovation, jointly sponsored by the University of Iowa, University of Iowa Health Care, University of Iowa Health Alliance, and University of Iowa Hospitals and Clinics Health Care Information Systems. PI: Patrick Brophy. Project Director: Philip Polgreen. Amount of funding: 10% of salary. Period of funding: January, 2016, to March, 2018.
- Funded as a co-investigator on a National Institutes of Health R03 research project grant (R03-DE023784). Title of proposal: “Secondary Analyses of Adolescent Caries, Including Fluoride, Diet and Other Factors.” PI: Steven Levy. Amount of funding: 10% of salary. Period of funding: August, 2014, to July, 2017.
- Funded as a co-investigator on a U54 specialized center grant from the U.S. Department of Health and Human Services and the Centers for Disease Control (U54-OH007548). Title of proposal: “Great Plains Center for Agricultural Health and Safety.” PI: Renee Anthony. Amount of funding: 2%–12% of salary. Period of funding: March, 2012, to March, 2017.
- Funded as a co-investigator on a R18 research project grant from the U.S. Department of Health and Human Services, Agency for Healthcare Research and Quality (R18-HS022467). Title of proposal: “Implementation and Effectiveness of a *S. aureus* Surgical Site Infection Prevention Bundle.” PI: Loreen Herwaldt. Amount of funding: 2.5%–5% of salary. Period of funding: April, 2014, to September, 2016.
- Funded as a co-investigator on a U19 multiple project grant from the U.S. Department of Health and Human Services (U19-OH008868). Title of proposal: “Healthier Workforce Center for Excellence.” PI: Diane Rohlman. Amount of funding: 2% of salary. Period of funding: October, 2011, to August, 2016.
- Funded as a co-investigator on a National Institutes of Health R01 research project grant (R01-HD065095). Title of proposal: “A Randomized Controlled Trial to Improve Teen Driving.” PI: Corinne Peek-Asa. Amount of funding: 1%–4% of salary. Period of funding: February, 2011, to July, 2016.
- Funded as a co-investigator on a National Institutes of Health R56 research project grant (R56-AG046539). Title of proposal: “Stress and Decision Making in Older Persons: Toward a Neurobehavioral Phenotype.” PI: Natalie Denburg. Amount of funding: 3.5% of salary. Period of funding: July, 2015, to May, 2016.
- Funded as a co-investigator on a National Institutes of Health T15 training and career development grant (T15-HL097622). Title of proposal: “Iowa Summer Institute in Biostatistics.” PI: Gideon Zamba. Amount of funding: 4%–8% of salary. Period of funding: March, 2013, to February, 2016.

- Funded as a co-investigator on a National Institutes of Health U01 research project grant (U01–HL102288). Title of proposal: “Iowa Phase II Clinical Trials of Novel Therapies in Lung Disease.” PI: Lakshmi Durairaj. Amount of funding: 15%–25% of salary. Period of funding: July, 2010, to July, 2015.
- Funded as a co-investigator on a National Institutes of Health Clinical and Translational Research Award (UL1–RR024979). Title of proposal: “UI Clinical and Translational Science Program.” PI: Gary Rosenthal. Amount of funding: 8%–10% of salary. Period of funding: July, 2009, to May, 2014.
- Funded as a co-investigator on a grant from the U.S. Department of Health and Human Services, Agency for Healthcare Research and Quality (HHSA–29020006100021). Title of proposal: “Optimizing Pre-Operative Antibiotic Prophylaxis for Cardiac and Orthopedic Procedures.” PI: Loreen Herwaldt. Amount of funding: 5% of salary. Period of funding: December, 2010, to August, 2013.
- Funded as a biostatistician on a grant from Delta Dental of Iowa. Title of proposal: “Iowa Fluoride Study Age 17 Data Collection.” PI: Steven Levy. Amount of funding: 10% of salary. Period of funding: January, 2011, to December, 2012.
- Funded as a co-investigator on a Centers for Disease Control R49 injury research grant (R49–CD001167). Title of proposal: “Iowa Injury Prevention Research Center.” PI: Corinne Peek–Asa. Amount of funding: 10%–20% of salary. Period of funding: September, 2007, to July, 2012.
- Funded as a co-investigator on a R18 research project grant from the U.S. Department of Health and Human Services, Agency for Healthcare Research and Quality (R18–HS018447). Title of proposal: “A Collaborative Model of Mental Health Care for Older Iowans.” PI: Brian Kaskie. Amount of funding: 10% of salary. Period of funding: September, 2009, to July, 2012.
- Funded as a co-investigator on a National Institutes of Health R01 research project grant (R01–CA122934). Title of proposal: “Elderly Cancer Survivors: Cognitive Outcomes and Markers of Neurodegeneration.” PI: Susan Schultz. Amount of funding: 5% of salary. Period of funding: June, 2007, to April, 2012.
- Funded as a biostatistician on a grant from Pfizer, Inc. Title of proposal: “Optimizing Influenza Surveillance in a Rural State.” PI: Philip Polgreen. Amount of funding: 10% of salary. Period of funding: September, 2008, to June, 2010.
- Funded as a co-investigator on a Centers for Disease Control R49 injury research grant (R49–CE000947). Title of proposal: “Parent–Based Intervention to Increase Safe Teen Driving.” PI: Corinne Peek–Asa. Amount of funding: 5% of salary. Period of funding: September, 2007, to September, 2009.
- Funded as a co-investigator on a National Institutes of Health R01 research project grant (R01–DE009551). Title of proposal: “Longitudinal Study of Fluoride, Diet, Caries and Fluorosis.” PI: Steven Levy. Amount of funding: 10% of salary. Period of funding: July, 2007, to June, 2009.
- Funded as a co-investigator on a Centers for Disease Control R49 injury research grant (R49–CCR721682). Title of proposal: “Iowa Injury Prevention Research Center.” PI: Corinne Peek–Asa. Amount of funding: 20% of salary. Period of funding: January, 2006, to September, 2007.

- Funded as a co–investigator on a National Institutes of Health K30 clinical research curriculum grant (K30–HL04117). Title of proposal: “Graduate Training Program in Clinical Research.” PI: Gary Rosenthal. Amount of funding: 15% of salary. Period of funding: October, 2004, to September, 2007.
- Funded as a co–investigator on a corporate health program contract with United Services Automobile Association. PI: Neal Kohatsu. Amount of funding: 5% of salary. Period of funding: August, 2004, to August, 2007.
- Funded as a biostatistician on a subcontract for a grant from the Centers for Disease Control and the Infectious Disease Society of America. Title of proposal: “The Emerging Infections Network.” Subcontract PI: Philip Polgreen. Total amount of funding: \$16,000. Funding distributions: June, 2006, and April, 2007.
- Contributed one of five project descriptions to a computing equipment grant proposal submitted to the National Science Foundation by the Department of Statistics, University of Missouri (DMS–9508296; Co–PI). Title of proposal: “Statistics Research Computing Equipment.” Total amount of award: \$60,912. Period of funding: August, 1995, to July, 1997.

INTERNAL RESEARCH SUPPORT: COLLABORATIVE

- With F. T. Wright (PI), awarded a 2004–2005 12–month grant in the amount of \$15,000 from the Research Board of the University of Missouri System. Title of proposal: “Unified Bayesian Order–Restricted Inferences.”

GRADUATE ADVISING

- Have supervised 19 doctoral dissertations: 13 in Biostatistics, 5 in Statistics, and 1 in Applied Mathematical and Computational Sciences.
- Presently serving as doctoral dissertation advisor for 3 students, Andres Dajles, Scott Koeneman, and Erik Boonstra.
- Have supervised 26 master’s preceptorships in Biostatistics and 13 master’s projects in Statistics.
- Have served on 97 doctoral committees and 35 master’s committees, for graduates in Biostatistics, Statistics, Animal Science, Biomedical Engineering, Dentistry, Economics, Educational Measurement and Statistics, Electrical Engineering, Epidemiology, Finance, Fisheries and Wildlife, Mathematics, Occupational and Environmental Health, Pharmacy, Political Science, Psychiatry, and Translational Biomedicine.
- Presently serving on 2 doctoral committees.

DOCTORAL ADVISEES

- Elliot Burghardt, Department of Biostatistics, University of Iowa. Defended November, 2021. Supervised with Daniel Sewell. Dissertation: “Agglomerative and Divisive Hierarchical Bayesian Clustering with Methods for Longitudinal and Time–to–Event Data”
- Javier E. Flores, Department of Biostatistics, University of Iowa. Defended April, 2021. Dissertation: “A New Class of Information Criteria for Improved Prediction in the Presence of Training/Validation Data Heterogeneity.”

- Ryan A. Peterson, Department of Biostatistics, University of Iowa. Defended April, 2019. Dissertation: “Ranked Sparsity: A Regularization Framework for Selecting Features in the Presence of Prior Informational Asymmetry.”
- Benjamin N. Riedle, Department of Biostatistics, University of Iowa. Defended April, 2018. Dissertation: “Probabilistic Pairwise Model Comparisons Based on Discrepancy Measures and a Reconceptualization of the p -Value.”
- Nan Hu, Department of Mathematics, Applied Mathematical and Computational Sciences, University of Iowa. Defended July, 2016. Dissertation: “A Unified Discrepancy-Based Approach for Balancing Efficiency and Robustness in State-Space Modeling Estimation, Selection, and Diagnosis.”
- Fan Tang, Department of Biostatistics, University of Iowa. Defended November, 2015. Dissertation: “Structural Time Series Clustering, Modeling, and Forecasting in the State-Space Framework.”
- Patrick Ten Eyck, Department of Biostatistics, University of Iowa. Defended July, 2015. Dissertation: “Problems in Generalized Linear Model Selection and Predictive Evaluation for Binary Outcomes.”
- Knute Carter, Department of Biostatistics, University of Iowa. Defended December, 2013. Dissertation: “Best-Subset Model Selection Based on Multitudinal Assessments of Likelihood Improvements.”
- Tao Zhang, Department of Biostatistics, University of Iowa. Defended April, 2013. Dissertation: “Discrepancy-Based Algorithms for Best-Subset Model Selection.”
- Eric D. Foster, Department of Biostatistics, University of Iowa. Defended July, 2012. Dissertation: “State Space Time Series Clustering Using Discrepancies Based on the Kullback-Leibler Information and the Mahalanobis Distance.”
- Ming Yang, Department of Biostatistics, University of Iowa. Defended April, 2012. Supervised with Gideon K. D. Zamba. Dissertation: “Statistical Models for Count Time Series with Excess Zeros.”
- C. Laura Acion, Department of Biostatistics, University of Iowa. Defended August, 2011. Dissertation: “Criteria for Generalized Linear Model Selection Based on Kullback’s Symmetric Divergence.”
- JonDavid Sparks, Department of Biostatistics, University of Iowa. Defended October, 2009. Dissertation: “Model Selection Criteria in the Presence of Missing Data Based on the Kullback-Leibler Discrepancy.”
- Zugui Zhang, Department of Biostatistics, University of Iowa. Defended June, 2007. Dissertation: “Linear Model Selection for Exactly and Nearly Replicated Data Based on Conceptual Predictive Statistics.”
- Junfeng Shang, Department of Statistics, University of Missouri. Defended July, 2005. Supervised with F. T. Wright. Dissertation: “Assessing Predictive Influence, Model Selection, and Bayesian Multiple Comparisons Under Order Restrictions.”
- J. Wade Davis, Department of Statistics, University of Missouri. Defended July, 2003. Dissertation: “Wavelet-Based Methods for Estimation and Discrimination.”
- Simon L. Davies, Department of Statistics, University of Missouri. Defended July, 2002. Dissertation: “Discrepancy-Based Model Selection Criteria Using Cross-Validation.”

- Hyun–Joo Kim, Department of Statistics, University of Missouri. Defended July, 2000. Dissertation: “Model Selection Criteria Based on Kullback Information Measures for Weibull, Logistic, and Nonlinear Regression Frameworks.”
- Thomas Bengtsson, Department of Statistics, University of Missouri. Defended April, 2000. Dissertation: “Time Series Discrimination, Signal Comparison Testing, and Model Selection in the State–Space Framework.”

MASTER’S PRECEPTORSHIPS DIRECTED

- “Evaluating Risk Factors for SARS–CoV–2 Seropositivity in UIHC and CCOM Healthcare Personnel,” Allison Schuette, Department of Biostatistics, University of Iowa. Completed Spring, 2022.
- “Big Data and Multiple Imputation: Modeling COVID Mortality Based on CDC Data,” Jacob Seedorff, Department of Biostatistics, University of Iowa. Completed Spring, 2022.
- “An Investigation of AIC Variants for Variable Selection in the Presence of Multiple Imputation,” Nathan Cunicelli, Department of Biostatistics, University of Iowa. Completed Spring, 2021.
- “Exploring Change–Point Diagnostics for Discrete–Time Models,” Scott H. Koeneman, Department of Biostatistics, University of Iowa. Completed Spring, 2020.
- “Predictive Efficacy and Analysis of Conviction Rates for Alcohol Involved Motorcycle Crashes,” Ali Charlson Zorn, Department of Biostatistics, University of Iowa. Completed Spring, 2020.
- “Multiple Comparisons: A Bayesian Model Selection Approach (With An Application to the Effect of State Policy in Reducing Disparities in Bullying),” Javier E. Flores, Department of Biostatistics, University of Iowa. Completed December, 2017.
- “Using Structural Equation Modeling to Examine Factors Influencing Dental Caries in Adolescents,” Alexandra Curtis, Department of Biostatistics, University of Iowa. Completed November, 2016.
- “An Analysis of Youth Football Injury Data,” Benjamin N. Riedle, Department of Biostatistics, University of Iowa. Completed April, 2015.
- “A Longitudinal Analysis of the Effect of Long–Term Dosing of Testosterone Cypionate on Body Weight and Lipid Profiles in Healthy Male Volunteers,” Youwei Bi, Department of Biostatistics, University of Iowa. Completed December, 2014.
- “Modeling the Evidence in a Triangle Plot: Informative Dropout and Longitudinal Data,” Anne Welhaven, Department of Biostatistics, University of Iowa. Completed May, 2013.
- “Analysis of Bullying Data from the Iowa Youth Survey Using Generalized Linear Mixed Models,” Patrick Ten Eyck, Department of Biostatistics, University of Iowa. Supervised with Marizen Ramirez. Completed December, 2012.
- “The Public Health Burden of Influenza: Clustering, Modeling, and Predicting Incidence for Diseases Associated with the Flu,” Fan Tang, Department of Biostatistics, University of Iowa. Supervised with Eric Foster. Completed December, 2012.
- “Time Series Modeling and Forecasting of US Lyme Disease Incidence, 1998–2009,” Brett M. Forshey, Department of Biostatistics, University of Iowa. Completed April, 2012.

- “A Case Control Study of *Clostridium Difficile* Risk Factors: The Inferential Consequences of Model Misspecification,” Mitchell Thomann, Department of Biostatistics, University of Iowa. Completed December, 2010.
- “Characterization and Prediction of Mortality from Influenza Using Influenza–Like Illness and Laboratory Culture Data,” Eric D. Foster, Department of Biostatistics, University of Iowa. Completed December, 2009.
- “The Effects of Familial Loading in Bipolar Disorder.” Tao Zhang, Department of Biostatistics, University of Iowa. Supervised with Jess Fiedorowicz. Completed December, 2009.
- “Modeling Zero–Inflated Count Time Series with an Application to Infectious Diseases,” Ming Yang, Department of Biostatistics, University of Iowa. Supervised with Philip Polgreen. Completed May, 2009.
- “Specialty versus General Care for Hospitalized AMI Patients: An Analysis Based on Hierarchical Modeling,” Levent Bayman, Department of Biostatistics, University of Iowa. Supervised with Dawei Liu. Completed May, 2009.
- “Extubation for Ventilated Patients: An Investigation for Better Decision Making,” Amy Johnson, Department of Biostatistics, University of Iowa. Completed April, 2009.
- “A Spatial Analysis of the Iowa Child Passenger Safety Survey Based on Generalized Linear Mixed Models,” Zunqiu Chen, Department of Biostatistics, University of Iowa. Completed April, 2008.
- “A Spatial Analysis of the 2006 Iowa Mumps Epidemic Using Generalized Linear Mixed Models: Were College Students to Blame?,” Lucas Bohnett, Department of Biostatistics, University of Iowa. Supervised with Philip Polgreen. Completed December, 2007.
- “Tooth Loss in the South Australian Dental Longitudinal Study,” Knute Carter, Department of Biostatistics, University of Iowa. Completed December, 2007.
- “Analysis of Iowa Child Passenger Restraint Survey,” Jing Xu, Department of Biostatistics, University of Iowa. Completed May, 2007.
- “Combining Statistical Modeling and Map Analysis in Population Health Research – A Case Study of Infant Mortality in Des Moines, Iowa,” Qiang Cai, Department of Biostatistics, University of Iowa. Completed December, 2006.
- “*Clostridium Difficile*–Associated Disease Among Patients in a Small Rural Hospital,” Laura K. Becker, Department of Biostatistics, University of Iowa. Completed November, 2006.
- “Factors that Affect Retention of Family Practice Physicians in Rural Iowa Communities,” Jaysri Butler, Department of Biostatistics, University of Iowa. Completed April, 2005.

MASTER’S PROJECTS DIRECTED

- “A Simulation Study of Population–Averaged Generalized Estimating Equations,” Gerwyn H. Green, Department of Statistics, University of Missouri. Completed March, 2004.
- “A Diagnostic for Assessing the Influence of Cases on the Prediction of Random Effects in a Mixed Model,” Junfeng Shang, Department of Statistics, University of Missouri. Completed April, 2003.

- “An Analysis of Mortality Data by Race and Gender for Boone County, Missouri,” Tamekia L. Jones, Department of Statistics, University of Missouri. Completed December, 2002.
- “Model Selection Criteria Based on Kullback–Leibler Information for Multiple Linear Regression,” Simon L. Davies, Department of Statistics, University of Missouri. Completed August, 2000.
- “Modeling Resource Utilization and Evaluating Injury Severity Scores Based on Missouri Trauma Patient Records,” Gaixin Jiang, Department of Statistics, University of Missouri. Completed April, 2000.
- “An Adaptive, Robust and High Performance Clustering Method,” Xiaohu Li, Department of Statistics, University of Missouri. Completed July, 1999.
- “Trauma Scoring Systems and Their Statistical Evaluation,” Ashley K. Sherman, Department of Statistics, University of Missouri. Completed April, 1999.
- “A Diagnostic for Assessing the Influence of Cases on the Prediction of Missing Data,” Jacob J. Oleson, Department of Statistics, University of Missouri. Completed April, 1999.
- “Time Series Spectral Discriminants Based on Kullback Information Measures (with an Application to Seismology),” Kristin Hedberg, Department of Statistics, University of Missouri. Completed December, 1998.
- “Bootstrap Variants of the Akaike Information Criterion for Model Selection with Applications to Linear Regression,” Hyun–Joo Kim, Department of Statistics, University of Missouri. Completed April, 1998.
- “Internet Accessible Educational Aids for Autoregressive Moving–Average Modeling in Time Series Analysis,” Aaron T. Bono, Department of Statistics, University of Missouri. Completed December, 1997.
- “An Investigation of Lagrange Multiplier Tests for the Interaction Between Autocorrelation and Conditional Heteroscedasticity in an Error Process,” Wei Zhang, Department of Statistics, University of Missouri. Completed December, 1996.
- “The EM Algorithm for Repeated Measures Designs,” Daniel B. Smith, Department of Statistics, University of Missouri. Completed May, 1995.

PROFESSIONAL ACTIVITIES: INTERNAL

- Executive Committee member for the College of Public Health, University of Iowa (November, 2014 – present).
- Executive Committee member for the Injury Prevention Research Center, University of Iowa (January, 2006 – present).
- Faculty mentor for the Iowa Summer Institute in Biostatistics, University of Iowa (summer 2011 – present).
- Member of the Admissions and Student Recruitment Committee for the Department of Biostatistics, University of Iowa (2006 – 2015, 2017 – present). Served as chair from 2006 to 2012.

- Chair of the Student Awards Committee, Department of Biostatistics, University of Iowa (2017 – present). Served as a committee member from 2012 to 2017.
- Member of the Colloquium Committee, Department of Biostatistics, University of Iowa (2014 – present).
- Member of the Ph.D. Comprehensive Examination Steering Committee, Department of Biostatistics, University of Iowa (2005 – present). Served as chair in 2014.
- Served as co-chair of the Ph.D. Comprehensive Examination Review Committee, Department of Biostatistics, University of Iowa (2019 – 2021).
- Served as co-chair of the Ph.D. Curriculum Review Committee, Department of Biostatistics, University of Iowa (2016 – 2019).
- Served as a mentor for the University of Iowa Sloan Center for Exemplary Mentoring (January, 2014 – May, 2021).
- Served as a member of faculty search committees for the Department of Biostatistics, University of Iowa, for the following academic years: 2003 – 2004, 2006 – 2007, 2008 – 2009, 2011 – 2012, 2013 – 2014, 2014 – 2015, 2016 – 2017, 2018 – 2019. Served as co-chair for 2016 – 2017 and for 2018 – 2019.
- Served as chair of the Departmental Executive Officer search committee for the Department of Occupational and Environmental Health, College of Public Health, University of Iowa (November, 2020 – October, 2021).
- Served as co-chair of the College of Public Health Dean Search Committee, University of Iowa (July, 2017 – April, 2018).
- Served as chair of the Awards Committee, College of Public Health, University of Iowa (2009 – 2015). Committee member from 2004 to 2015.
- Served as chair of the committee to revise the Ph.D. Comprehensive Examination, Department of Biostatistics, University of Iowa (2012 – 2013).
- Served as an elected member of the Promotion and Tenure Collegiate Consulting Group, College of Public Health, University of Iowa (2010 – 2014).
- Served as a member of the Institute for Clinical and Translational Science, University of Iowa; Biostatistician for the Research Education, Training and Career Development Key Function (July, 2009 – May, 2014).
- Served as a biostatistician for the College of Dentistry, University of Iowa (August, 2005 – June, 2009).
- Served as the Associate Director for Biostatistics for the Center on Aging, University of Iowa (November, 2003 – June, 2009).
- Served as a member of the Departmental Executive Officer search committee for the Department of Community and Behavioral Health, College of Public Health, University of Iowa (2008 – 2009).
- Served as a biostatistician for the Iowa Scholars in Clinical Investigation program at the University of Iowa (October, 2004 – September, 2007).

- Served as a member of an internal College of Public Health review committee to evaluate the Department of Health Management and Policy at the University of Iowa (2005).
- Served as the faculty Advisor to the Statistics Graduate Student Association (SGSA), Department of Statistics, University of Missouri (1995 – 2003).
- Served as a member of the Research Council of the University of Missouri (winter semester, 2003).
- Designed the bachelor’s degrees in Applied Statistics at the University of Missouri. (First offered during the 2001 – 2002 academic year.)

PROFESSIONAL ACTIVITIES: EXTERNAL

- Evaluated promotion and/or tenure cases for faculty candidates at Clemson University (2011, 2016), Cleveland Clinic (2020), Colorado School of Public Health (2013, 2017), Colorado State University (2021), Columbia University (2001, 2007), Connecticut College (2009), East Tennessee State University (2015, 2021), Georgetown University (2014), Indiana University (2020), Mayo Clinic (2018), Montana State University (2010), Michigan State University (2019), National Technical University of Athens (2014), New York University (2013, 2019), Oregon State University (2016), Pomona College (2011), Seoul National University (2019), Southern Illinois University – Edwardsville (2005), Towson University (2015, 2018, 2019), Texas A&M University (2021), Trinity University (2021), University at Buffalo (2011, 2019), University of Cyprus (2013), University of Florida (2018), University of Georgia (2014), University of Kansas (2009, 2011, 2016, 2021), University of Maryland, Baltimore County (2011, 2014), University of Massachusetts – Amherst (2020), University of Michigan (2015, 2019), University of Missouri (2010, 2019), University of New Mexico (2015), University of North Carolina at Chapel Hill (2021), University of Wisconsin – Milwaukee (2020).
- Mentor for the National Alliance for Doctoral Studies in the Mathematical Sciences (April, 2015 – present).
- Member of the Spanish National Biostatistics Network (BIOSTATNET) (September, 2011 – present).
- Serve on the American Statistical Association Committee to select the annual recipient of the Karl E. Peace Award for Outstanding Statistical Contributions for the Betterment of Society (2019 – present). Served as chair from 2019 to 2021.
- Led the University of Iowa College of Public Health COVID–19 Response Group in modeling COVID–19 incidence, hospitalizations, and mortality for the Iowa Department of Public Health (March, 2020 – May, 2020).
- Served as a reviewer for the Board of Regents, University System of Georgia, to evaluate a proposed doctoral program in Biostatistics at the University of Georgia (February, 2013).
- Served on a three–member advisory committee to the Kansas Board of Regents to evaluate proposed graduate programs in Biostatistics at the University of Kansas (June, 2009).
- Served on Data Safety Monitoring Boards for a multicenter intervention study coordinated at the University of Iowa (2009 – 2013), and for a phase I clinical trial conducted at the University of Kansas (2008 – 2013).
- Participated in the redesign of the Iowa Child Passenger Restraint Survey, conducted by the University of Iowa Injury Prevention Research Center for the Iowa Governor’s Traffic Safety Bureau (2005).

- Served on an independent expert panel to evaluate organ transplantation simulation models; Chicago, Illinois. Sponsored by the Division of Transplantation, Health Resources and Services Administration, U.S. Department of Health and Human Services (September, 2004).
- Served as the American Statistical Association (ASA) representative to the American Academy for the Advancement of Science (AAAS); Industrial Science and Technology Section (2002 – 2005). Attended the 2004 and 2005 annual meetings of the AAAS as an ASA representative; Seattle, Washington (2004) and Washington D.C. (2005).
- Served as a contributed poster judge at the 2003 Joint Statistical Meetings.
- Organized an invited session at the 2002 Joint Statistical Meetings for the Western North American Region of the Biometrics Society. Session theme: Biometrical Applications of Modern Time Series Methodologies.
- Served as Treasurer of the Mid–Missouri Chapter of the American Statistical Association (1995 – 2000, 2003).
- Served as President of the Mid–Missouri Chapter of the American Statistical Association (2000 – 2002).

EDITORIAL ACTIVITIES

- Associate Editor for the *Journal of Forecasting* (since October, 1999).
- Served two consecutive three-year terms as an Associate Editor for *The American Statistician* (June, 2011 – December, 2017).
- Served two consecutive three-year terms as an Associate Editor for the Reviews Section of the *Journal of the American Statistical Association* and *The American Statistician* (January, 2005 – December, 2010).
- Referee for *Afrika Statistika*, *The American Statistician*, *Annals of Applied Statistics*, *Annals of the Institute for Statistical Mathematics*, *Atmospheric Environment*, *Australian and New Zealand Journal of Statistics*, *Automatica*, *Bayesian Analysis*, *Bernoulli*, *Biometrics*, *Biostatistics*, *Canadian Journal of Statistics*, *Circulation*, *Communications in Statistics – Theory and Methods*, *Computational Statistics*, *Computational Statistics and Data Analysis*, *Epidemiology and Infection*, *Geophysical Research Letters*, *IEEE Transactions on Information Theory*, *IEEE Transactions on Neural Networks*, *IEEE Transactions on Reliability*, *IEEE Transactions on Signal Processing*, *IEEE Transactions of Systems and Circuits I*, *Johns Hopkins APL Technical Digest*, *Journal of the American Statistical Association*, *Journal of Applied Meteorology and Climatology*, *Journal of Applied Statistics*, *Journal of Computational and Graphical Statistics*, *Journal of Forecasting*, *Journal of Multivariate Analysis*, *Journal of Nonparametric Statistics*, *Journal of Statistical Computation and Simulation*, *Journal of Statistical Planning and Inference*, *Journal of Time Series Analysis*, *Metrika*, *Psychometrika*, *Scandinavian Journal of Statistics*, *Sankhyā A: The Indian Journal of Statistics*, *Signal Processing*, *South African Statistical Journal*, *Statistica Neerlandica*, *Statistica Sinica*, *Statistical Modelling*, *Statistics*, *Statistics & Probability Letters*, *Statistics in Medicine*, *Statistics Surveys*, *Stochastic Environmental Research & Risk Assessment*, *Technometrics*, and the collections *Modeling and Prediction: Honoring Seymour Geisser*, *Statistical Methods for Modeling Human Dynamics: An Interdisciplinary Dialogue*, *Statistical Models and Methods for Biomedical and Technical Systems*.

- Reviewer for grant proposals submitted to the National Science Foundation, National Security Agency, the University of Iowa College of Public Health / College of Medicine New Investigator Program, the University of Missouri Research Board, and the Professional Staff Congress – City University of New York Research Award Program.
- Chosen as an “Outstanding Reviewer” for 1999 by the editorial board of *Automatica*.
- Publisher reviewer for *Advanced Linear Modeling (Second Edition)* by Ronald Christensen (2001; Springer, New York).

PROFESSIONAL SOCIETIES

- American Statistical Association (Elected Fellow, 2014)
- International Statistical Institute (Elected Member, 2019)
- International Biometric Society
- Institute of Mathematical Statistics
