There is also one that is for MS level, they have it as “Senior Statistical Analyst / Statistical Analyst” ... but then the description is for Senior Stat Analyst, if someone is interested I’d encourage them to inquire even if they don’t have the MS+3yrs experience in the description.

One other note is that companies have stopped listing positions as possibly being at the listed location or remote, they just list the location. However, if someone really wants a remote position, most companies are open to negotiation on this.

Thanks,
Anne
