IMPROVING HEALTH
OUTCOMES THROUGH
PREVENTING CHILDHOOD
OBESITY CONFERENCE

ABOUT US

IOWA INSTITUTE OF PUBLIC HEALTH RESEARCH AND POLICY

The Iowa Institute of Public Health Research and Policy (IIPHRP) was established to expand the scope, scale and impact of public health research and policy. Through building collaborations, creating opportunities for student engagement and building local, state, and national alliances, the IIPHRP promotes the vital development, implementation, and evaluation of public health programs to address grand challenges in population health. For more information please visit:

<https://www.public-health.uiowa.edu/iiphrp/>

HEALTHY LIFESTARS

Healthy LifeStars is a national non-profit organization dedicated to ending childhood obesity through education, awareness and changed habits to influence future generations of healthy children. The program inspires personal responsibility to eat nutritious foods in the right amounts, stay physically active every day and set personal goals to achieve good health.

Project Coordinator

SPONSORSHIP IMPACT

- Healthy LifeStars school-based program brings education and motivation directly to school children by teaching three principles: healthy eating, staying active and goal setting.
- \$50 supports one child to go through the program for one year.
- Sponsorship allows children across the state of Iowa to benefit from the program at no cost to the child serving organization hosting the program.

Iowa HLS Participants Served Through April 2023

	Goal	Actual	Total Sites
FY19	300	312	6
FY20	1000	1647	18 COVID
FY21	1600	1738	8 COVID
FY22	1600	1260	5 COVID
FY23	2000	3480	13

8,437 TOTAL KIDS SERVED

QUOTES FROM KIDS IN THE PROGRAM

"The more exercise you do the easier it is for your lungs to take in more air, and it's also good to have deep breaths after you run a lot."

"Being active and healthy is important for your body and to exercise your brain."

"You shouldn't always just eat junk food and candy. You should try to eat fruits and vegetables mostly every day."

IMPROVING HEALTH OUTCOMES THROUGH PREVENTING CHILDHOOD OBESITY CONFERENCE

Annual Health Education Conference

This annual event includes a virtual all-day conference, featuring experts from across the country presenting their cutting edge research in childhood nutrition, physical activity, and prevention of long-term adverse health effects caused by obesity.
